### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 32, line 6, "sense signal on said sense resistor" has been changed to -- sense signal on a sense resistor -- because the sense resistor has not been introduced before.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a differential difference amplifier for amplifying a voltage sense signal on a sense resistor and adding the offset voltage to the amplified voltage sense signal that has, in combination with other limitations, a first load device coupled between first and second inputs for the second differential input pair, a second load device coupled in a feedback loop between an output for the differential difference amplifier and the second input for the second differential input pair; and wherein said offset voltage generation circuit is coupled between an input for the first differential input pair and an input for the second differential input pair.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent # 6,466,089 B2 contain some limitations of the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
